

# Quality Policy

The Company has total commitment to design and manufacture of a high quality reliable product, which conforms to the customer's requirements (both stated and implied) and comply with the requirements of ISO 9001:2008.

Top management will ensure that customer requirements are determined and are met with the aim of enhancing customer satisfaction. In addition it establishes a framework for reviewing quality objectives that are appropriate to the purposes of the organisation and are reviewed for continuing suitability.

It is Company policy that all personnel shall fully understand and be responsible for the quality and safety aspects associated with their functions. Opportunities for improvement will be reviewed by management and incorporated into our Quality System on a continuous basis.

All Directors and Managers are responsible for ensuring that the personnel reporting to them are fully conversant with the quality requirements stipulated in this manual, placing particular emphasis on the avoidance of mishandling materials and equipment and the reporting of irregularities or unusual features in materials and processes. Top management will ensure that communication takes place regarding the effectiveness of the quality management system.
